- Utilized NodeJS, Express, MongoDB, Pug

Experience

Lambda School Academy of Computer Science and Web Development — Remote
Team Lead — 2020 to Current
- Mentor 8 students on how to learn effectively and solve programming problems.
- Reinforce technical concepts by facilitating small group study sessions and 1:1 daily check-ins
- Provide daily live code reviews and lead feedback sessions on code improvements, readability, and best practices
- Led daily standup meetings to build camaraderie, facilitate the sharing of ideas and work progress, and provide guidance for that week's study material

Dan Marquez State Farm — Hillside, IL
Office Representative — Dec. 2017 to Jan. 2020
- Worked in a team with office staff to provide superior customer service to a client database of 800 policyholders
- Collaborated with various departments in State Farm to resolve claims and billing questions in a 24 hour or less turnaround
- Advised customers on insurance needs for all lines of insurance including auto, fire, life, and health
- Provided business and technical support for email, spreadsheets, and word processing to office co-workers

Majestic Star Casino — Gary, IN
Supervisor — July 2014 to Nov. 2017
- Held responsibility for daily operation of 21 table poker room including satisfying guests needs to maximize repeat business
- Handled the scheduling of 20 employees ensuring appropriate staffing levels
- Provided upper management detailed reports on business using MS Office and Casino Management Software
- Instructed a training class of 10 new employees on our policy and procedures. Ensured they were competent on industry standards and customer service expectations

Education

Lambda School Academy of Computer Science and Web Development — Apr. 2019 to Current
Full-Stack Web Development
Wrote production-ready code using ReactJS, Redux, and CSS on the frontend and NodeJS and Express on the backend

Purdue University Northwest — Aug. 2016 to Dec. 2018
Computer Information Technology
Programming coursework covering data structures, algorithms, memory management and object-oriented design
